PROFILE

Experienced E/CTRM consultant with 3 years of hands-on expertise in implementing and optimizing OpenLink RightAngle (v20) solutions within the Energy and Propane distribution domain. Seeking to contribute to a growth-oriented organization while continuing to deepen my expertise in ETRM systems and cloud technologies.

WORK EXPERIENCE

Associate Consultant

JUNE 2023 - PRESENT

Wipro Limited, Bengaluru, Karnataka

- Worked as a strong techno-functional resource in end-to-end ETRM implementations, translating business requirements into robust system configurations.
- Executed daily monitoring tasks and health checks across RightAngle and custom apps(AP App, ASW, TMW, RailHub, WACOG) and troubleshooting issues within 1 hr on average to minimize business disruption.
- Designed and implemented SQL stored procedures, reducing data retrieval times by 35%.
- Prepared functional design documents (FDD), technical specifications documents (TSD) according to business needs.
- Developed and Optimized Azure Functions for automated data ingestion, real-time deal processing and exception handling.
- Consolidating the entire critical and sensitive data for the clients which help them to analyze their results to improve their efficiency in production.
- Collaborated with operations and logistics teams to monitor daily propane inventory levels, reconcile scheduled vs. actual loads and investigate variances, ensuring uninterrupted supply to delivery routes.
- Engaged in knowledge management activities with clients and internal team.

Developer – L1

OCT 2022 - MAY 2023

Wipro Limited, Bengaluru, Karnataka

- Monitored Azure App Service and SQL Server health, managed Azure Monitor alerts, scaled App Service Plans and ensured 99.9% uptime.
- Acted as first responder for incident tickets: investigated root causes, applied hot-fixes, escalated critical issues, and communicated resolution steps to stakeholders.
- Developed and Optimized stored procedures, views and user-defined functions to support application features and ad-hoc reporting requests.
- Responded to database-related support tickets, diagnosed connectivity and permission issues, and applied fixes within SLA windows.
- Proactive email management to ensure prompt response for Major/Minor Incident communications which supports and save the business from breaching the SLA (Service Level Agreement).
